DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Withdrawn claims 6-18, drawn to non-elected Groups II and III, are cancelled.

Allowable Subject Matter

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 1.

Specifically regarding claim 1, Wohlstadter (5986811) teaches the state of the art of a micro-lens.

But, Wohlstadter fails to explicitly teach a combination of all the claimed features including wherein the micro-lenses and substrate comprise hydrogel that swells, as

claimed. Furthermore and in light of the specification of the instant application, the office interprets swelling to mean an increase in volume of the hydrogel.

Specifically regarding claim 1, Uematsu et al. (6295167) teaches the state of the art of hydrogel as an optical material.

But, Uematsu et al. fails to explicitly teach a combination of all the claimed features including an array of substantially transparent spherical micro-lenses on the substrate, the micro- lenses forming a pattern, the pattern having an internal two-dimensional lattice symmetry on the planar substrate; and wherein each micro-lens comprises one of a convex bulge in a surface of the planar substrate and concave depression in a surface of the planar substrate, as claimed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
